Just had my Veneers done here and what a job it was!

I've never been so happy and confident with the results Chris was able to achieve. He gave honest and professional advice in what was possible within my budget and my teeth have never looked better!

The ladies at the front desk have been absolutely amazing at managing appointments with my work schedule. They always go above and beyond to make you feel comfortable and are honestly the most friendly and personable staff I have come across in a long while

Thanks guys! Will definitely be recommending you to my friends and family

Big shout out to Dr. Chris and the wonderful team at Redlands Gentle Dental, Capalaba. Dr. Chris and the team are very welcoming, offer exceptional care and are genuine in their approach to ensure even the worst dental phobic, (Me), is left feeling that they are in a safe and caring environment. Thanks to Dr. Chris I now have a smile I can be proud of. My life is now changed for the better and I will be forever grateful. Don't put off going to the dentist ever again, just call these guys and book in, you will not regret it. 😊😁 Best experience ever.

Elaine and the team at Redlands Gentle Dental are truly amazing. They made my recent visits to the clinic super comfortable! Very professional, friendly and genuinely care about your experience. Would highly recommend their services. Special thank you to Elaine & Kylie for their efforts in making me feel at ease during my last appointment.

Redlands Gentle Dental is the best dental practice I've ever been to! They're incredibly professional from the staff at reception to the dental assistant and dentist. The dentist I had was (Dr Carol Au) she is very professional, knowledgeable and diligent so you're not left laying in a chair any longer than need be, which is terrific for anyone anxious of dental procedures! I have two children that have been seen by Dr Au and they think that she and the rest of the staff are fantastic also. They used to be afraid of dentist's and we're always nervous before an appointment but once they'd been to RGD and after seeing Dr Au they don't get nervous at all before an appointment.

The fee's are very affordable for those worried of the cost. This would be the first time I'd actually be happy to return for more dental treatment.

So if you need dental work go and see them you honestly won't be disappointed. AAA+

Big shout out to Gentle Dental Care at Victoria Point! From the first email with Cassandra, the consultation with Dr Colin and his excellent care in my tooth extraction, and the comprehensive, kind follow-ups.... I can't recommend this practice enough. They covered all the bases 1000% Thank you again, Cassandra and Dr Colin :)

Our 5 year old daughter had her appointment with Dr Cora Chen. Dr Cora Chen was patient, kind, thorough and generous with her time. Highly recommend and will definitely be back! Thank you team for making our daughter feel comfortable and cared for.

I have been a patient with Gentle Dental for over 10 years at Capalaba and Victoria Point clinics. I put-off going to the dentist and there have been long gaps between visits - even with private health insurance. However, the staff have always welcomed me back with a smile and for all of my avoidance, they have never shamed me - even when they have called me constantly over many months to make an appointment!

I am extremely anxious when it comes to going to the dentist and went for the first time in 7 years - had the most amazing experience. The kindest and most gentle dentist - Dr Colin Phan and dental nurse - Kiri-ana . Talked me through everything and made sure I was comfortable the whole way. Easily the best experience I've ever had and can't wait to come back!

Thanks gentle dental 🦷 😊
